---

**Tropical Storm Alberto**

**Weather Update:**

Tropical Depression Alberto will continue northeastward through the Carolinas today. Localized flooding is likely from the eastern Carolinas northward to Virginia. Wind will not be much of a problem, however. In addition to the threat of locally heavy downpours, isolated tornadoes are possible over parts of the eastern Carolinas.

## **Affected Port Operations**

SDDC NORTHCOM Team issued a WARNORD to the 597<sup>th</sup> for execution.

### **Personnel:**

All personnel accounted for at Jacksonville, Cape Canaveral, MOTSU, and Charleston.

### **Military Cargo/Gear at the Port:**

ARC Honor (Jacksonville)—port clearance completed; 7 days, 1048 pieces, 35 destinations, 142 railcars, 290 trucks and only 10 pcs to clear on last day. S3 Comments: 832nd Trans BN continued port clearance at 0800hrs with 1-CMCL truck gang clearing the remaining cargo from the Honor. All cargo has cleared port. WEATHER: There is no significant impact on operations. MV Advantage Redeployment for USMC Exercise African Lion 06--ETA: 2200L, 16 JUN 06 for work on 17 JUN 06

Charleston—87 pieces of export cargo (to include 46 UAHs) and 59 pieces of import cargo currently on the port. Port operations ongoing with no reports of impact at this time.

### **Vessel Operations:**

JLOTS 06—Due to Tropical Storm Alberto JLOTS-06 executed the following tasks to ensure the safe execution of the mission. Reduced the base camp set up, removed all equipment from the beach and conducted several risk assessments to ensure all personnel and equipment was put away in preparation of the storm. The JTF staff relocated to BLDG 851 to revise CONOPS to ensure the successful execution of all training objectives outlined in support of JLOTS-06.

Cape Canaveral—The Barge Mobro 1210 arrived 10 JUN 06, discharged and loaded on 12 JUN 06 without incidents to report. The Barge Mobro 1210 departed Cape Canaveral 14 JUN 06 destined for Andros Islands, Bahamas with an ETA of 16 JUN 06. The departure delay was based on unfavorable weather sail conditions.

### **Rail Status:**

No impact reported thus far.

### **Highway Status:**

No impact reported thus far
